

A Philippine company that makes energy storage batteries

Who is the best battery company in the Philippines?

Located in Davao, Mindanao Energy Systems Inc. is another top contender in the Philippines' battery market, specializing particularly in lithium ion batteries and solar battery systems.

Can battery energy storage systems transform business in the Philippines?

Battery Energy Storage Systems have the potential to transform how commercial and industrial companies in the Philippines manage their energy needs. With benefits ranging from cost reduction to energy supply stability, BESS is a compelling solution. While the initial investment may vary, the long-term advantages are undeniable.

Why should you choose a battery company in Manila?

Companies in Manila are well-placed to manage imports of raw materials such as lithium, necessary for the production of lithium ion batteries, and to export finished products globally. Founded in the early 2000s, Philippine Battery Incorporated has grown to become one of the leading battery manufacturers in the Philippines.

Who provides fractionalized battery energy storage?

We are partnered with NexVolt, the first in the Philippines to provide fractionalized Battery Energy Storage. NexVolt, through their cutting edge technology, ensures even Small Medium Enterprises (SMEs) can adopt inexpensive battery energy storage systems and kickstart their journey towards energy independence.
