

A good outdoor power supply under \$100

Why should you buy a portable power station?

Bring big backup power with you with these expert-recommended portable power stations, which can store enough power to charge electronics, appliances, and more.

What is the best portable power station?

With a great power-to-weight ratio, the latest version of the Bluetti Elite 200 V2 is a great portable power station for powering a camper or providing backup power for the essentials. With its tremendous capacity, the EcoFlow Delta Pro 3 is truly capable of providing a whole-home backup without gas or solar panels.

Should you buy a power brick or a portable power station?

Small power bricks have enough juice to charge your phone a few times, while a cooler-sized portable power station can keep vital electronics running during a power outage or camping trip, and the most powerful options will provide electricity to your entire house.

Can you take a portable power station camping?

You can take any good portable power station camping and get good use out of it, as long as you don't mind closely monitoring your power usage. The difference with the Jackery Solar Generator 1000 is that it comes with two of Jackery's powerful SolarSaga 100X solar panels that can charge the battery in about eight hours.

How much does a portable power station cost?

Outputs Portable power stations can get expensive, but this model from Bluetti is a fantastic budget-friendly option, currently retailing for \$330. Despite its lower price, it's a powerful unit capable of delivering 1,000W output for regular loads and up to 2,000W for resistive loads like heaters or hair dryers.
