

How is a ups cabinet installed?

Each cabinet in the battery system is placed in its correct location. cabinet grounding/mounting kit is installed between any cabinets that are bolted together. ground wire is installed between all cabinets. All conduits and cables are properly routed to the battery cabinets. ground conductor is properly installed to the UPS cabinet.

Where should a battery cabinet be installed?

If the battery cabinet is installed adjacent to the UPS, the recommended installation location for the battery cabinet is on the right side of the UPS cabinet. This location will allow for future expansion using an external module. Cabinets can be permanently bolted to the floor or left standing on leveling feet.

How do I install a 9395 model 1085 Battery Cabinet?

The 9395 Model 1085 battery cabinet is designed to be installed in a standalone configuration using two to four battery cabinets. Power wiring is installed externally between each battery cabinet and the UPS or battery disconnect using conduit. Battery cabinets may be installed adjacent to the UPS or in a separate location.

How do you put a battery cabinet aside a ups?

Carefully slide the battery cabinet off the pallet. Now the battery cabinet is ready to be placed aside the UPS. Both sides can be used for battery cabinet placement but for easier service access to UPS, on the 93PM 30-150 kW UPS right side is preferred, and on the 93PM 160-200 kW left side is preferred.

What is an integrated battery cabinet (IBC)?

The Integrated Battery Cabinet (IBC) systems are housed in single free-standing cabinets. Model 1085 or 1085HR with a single battery voltage range is available to meet application runtime needs. Up to four cabinets may be installed to further extend battery runtime. The cabinets match the UPS cabinet in style and color.

How do you connect a battery to a cabinet?

Route the ground wire (from the field kit) from the ground stud in one battery cabinet, under the lower battery tray and through the cabinet-to-cabinet cable access area in the side of the cabinets, and attach to the ground stud in the other battery cabinet (see Figure 4-4). Hardware is provided on each ground stud.
