

Base station distribution box model

What is a utility distribution box (UDB)?

HDT's Utility Distribution Boxes (UDBs) provide safe power distribution in applications requiring feed-thru to larger areas. In each model, the three-phase power is broken into three 120 volt circuits within the box.

How many amps does a power distribution box have?

Our power distribution boxes range from 20-800 Amps and are well known for being durable, long lasting and safe. Load Master (TM) Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads.

What are load master TM series portable power distribution boxes?

Load Master (TM) Series portable power distribution boxes are the first in the industry to feature outputs with adjustable current ratings to match specific application loads. These temporary power distribution boxes feature 1, 3 or 4 adjustable circuit breakers, with a range of amperage and voltage ratings.

How many amps does a Lex distribution box have?

Lex Products distribution boxes range from 20-800 Amps and are known for their unprecedented durability, safety and reliability. Whether you need a power distribution box for backup power, emergency relief or indoor/outdoor events, Lex Products has you covered.

What is a NEMA 1 indoor distribution box?

The indoor distro boxes have a NEMA 1 Indoor environmental rating, like the versatile 100 amp 3 phase PowerHOUSE (TM) Pagoda portable distribution box. Lex Products has a portable power distribution box you need for your industry.

Are Lex power distribution boxes safe?

Lex Products offers a full range of portable power distribution boxes and units, specifically engineered for indoor and outdoor use for the entertainment, industrial and military industries. Our power distribution boxes range from 20-800 Amps and are well known for being durable, long lasting and safe.
