

British Energy Storage Power Station New Energy Project Plan

SSE Renewables, part of British utility SSE PLC (LON:SSE), in partnership with a group led by Gilkes Energy, on Monday unveiled a plan to build one of the largest pumped ...

Hinkley Point C nuclear power station, Somerset Hinkley Point under construction (Credit: EDF) Hinkley Point C in Somerset is the first new ...

To be located at the decommissioned Cottam coal-fired power station, the project will include three electricity generating stations, each with anticipated capacity in excess of 50 ...

The 1,400MW (3,100MWh) project will be the largest battery storage project in the UK, and one of the largest in Europe. The project was approved by Doncaster Council on 28 ...

There has been a shift in the pipeline for current and future long duration electricity storage (LDES), from over 7.2GW in December 2023 to 10.5GW in May 2024. In January, the ...

A new era for renewable power and energy security begins today (Tuesday 8 April) as Ofgem launches a new cap and floor investment support scheme, unlocking billions in ...

There will be a potential surge in battery energy storage system (BESS) projects receiving grid connection offers before 2030 following regulatory reforms approved by energy ...

A group including energy giant Centrica, the owners of British Gas, and the state-owned UK Infrastructure Bank have invested £300m to get the project off the ground.

"The flagship project in the Scottish Highlands can shift the dial on pumped hydro storage - harnessing the power of wind and water to become Britain's biggest natural battery, ...

This acquisition marks a significant expansion in British Solar's renewable energy portfolio, enhancing its capacity to deliver sustainable energy solutions. The project, which ...

Thurrock Storage, the UK's largest battery energy storage system (BESS) developed by Statera Energy is now energised and delivering electricity to the grid. This ...

Friday 11th April 2025 Planning consent achieved for two large-scale BESS projects in Suffolk and Sussex Clearstone Energy has recently secured planning consent for two large scale Battery ...

British Energy Storage Power Station New Energy Project Plan

21.9 GWh of battery energy storage systems (BESS) was installed in Europe in 2024, marking the eleventh consecutive year of record breaking-installations, and bringing ...

Foreword Stepping up efforts to develop new energy storage technologies is critical in driving renewable energy adoption, achieving China's 30/60 carbon goals, and establishing a new ...

Having a national energy provider also means taking all the risk. EDF lost a lot of money building nuclear power plants at a cost much higher than expected, including in the UK. ...

This Action Plan sets out a pathway towards deploying low carbon flexible capacity technologies like long-duration electricity storage, power carbon capture, usage and storage ...
