

Bulgaria Power Station Energy Storage Site Energy Project

Solaris Holding, a joint venture between German solar developer Sunotec and Eurohold Bulgaria, has officially commissioned a hybrid solar power plant located near Pernik. ...

A new large hybrid energy project, consisting of a photovoltaic plant and a battery energy storage station, has opened in Bulgaria. We are talking about Solaris Park in Pernik, ...

However, Turkey is still dwarfing all other Balkan countries in the sector, at least in the number and size of pending projects. The Energy Market ...

PPC Group is accelerating its expansion in the Balkans by laying the foundation stone for its Colosseum solar power project in Bulgaria. The ...

Bulgaria's energy storage programme oversubscribed 4.3 times Bulgaria's Ministry of Energy has received applications for EUR2.55 billion in stand-alone energy storage projects ...

NEK intends to invest in two floating solar power and two pumped storage hydropower plants and battery energy storage projects.

Under the agreement announced earlier this week (27 July), Chinese PV inverter and battery energy storage system (BESS) company Sungrow intends to supply BESS to ...

As Europe races toward climate neutrality, Bulgaria's surge in storage capacity signals a shift not only in national priorities but also in regional energy dynamics.

The latest white paper, prepared by Fluence in collaboration with APSTE, examines the current state of the Bulgarian energy market and the potential ...

The latest white paper, prepared by Fluence in collaboration with APSTE, examines the current state of the Bulgarian energy market and the potential for energy storage applications to ...

Rezolv Energy is a renewable energy producer with 2.2 GW under construction or being prepared for construction in South Eastern Europe. This ...

The project is part of Bulgaria's broader goal to achieve 10 GWh of battery storage capacity by next year. The newly inaugurated battery ...

Bulgaria Power Station Energy Storage Site Energy Project

Bulgaria has started the procedure to create the largest energy storage battery in the country, Energy Minister Zhecho Stankov said Wednesday during the opening of the fifth ...

Developers of 82 standalone battery storage projects in Bulgaria, for an overall 9.71 GWh in capacity, got approval for EUR 587 million in subsidies from the Ministry of Energy.

Transformation of AES Galabovo into a large-scale energy storage facility using proven technology implemented in concentrated solar power plants (CSP) using molten salts

All facilities must be connected to Bulgaria's grid and operational by March 2026. RESTORE is part of Bulgaria's National Recovery and Resilience Plan (NRRP), which ...
