

Container power generation dealers

What is a containerised generator?

Our Containerised Generators deliver robust, high-capacity power from 300-3,000 kVA in secure, weather-resistant enclosures. Designed for challenging environments and critical applications, they offer noise reduction, easy transport, and bespoke configuration to meet your site's exact needs.

What gensets does Jenbacher offer?

Integrated Power Solutions. Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized units delivered, our genset containers offer optimal performance in various site conditions.

What are containerized generator / packaged container and enclosure options?

Containerized generator / Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets, balance of plant equipment, and switchgear.

Which generator sets are best for refrigerated container units?

The most rugged, dependable and easy-to-operate generator sets for refrigerated container units. Carrier's industry-leading PowerLINE Generator Sets are designed and built for continuous, unattended operation for all refrigerated containers transported by road or rail worldwide.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of containerized generators were usability, reliability and functionality for the end user.

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

Shipping Containers are perfect for export by Sea freight. Diesel generators in this form factor can be placed onto a freighter with minimal preparation, turning your Diesel generator into a power ...

Carrier's industry-leading PowerLINE Generator Sets are designed and built for continuous, unattended operation for all refrigerated containers transported by road or rail worldwide.

Mech-Power Generator MPG's history can be traced back to 1983 and it has grown to become a leading

Container power generation dealers

manufacturer in design, assembly, testing, installation, commissioning, sale and ...

Our GEN-C generators are engineered to deliver power in challenging applications such mining sites, remote construction sites, power plants and telecom sites. at eco°, our key focus lies ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized ...

At our Green Factory, we provide you with extensive manufacturing and production services for mobile power stations designed as containers. Our solutions are your benefits: quality ...

Protect your family when outages strike! Designed to power your whole home when the grid fails or weather knocks out electricity, KOHLER home ...

Find your local Honda Power Equipment dealer. Authorized sales & service locations for Honda Generators, Lawn mowers, Tillers, Trimmers, Snow blowers, & Pumps.

Cummins meets the growing demand for efficient and sustainable power on a global scale. We design, manufacture, and test all major components of our ...

We offers containerized generator sets with CHP and Emission control system. With our genset containers offer optimal performance in various site conditions.

Using Shipping Containers for Energy Industry Shipping containers have become increasingly popular in the power generation and energy industry due to their ...

At our Green Factory, we provide you with extensive manufacturing and production services for mobile power stations designed as containers. Our ...

Carrier's industry-leading PowerLINE Generator Sets are designed and built for continuous, unattended operation for all refrigerated containers transported by ...

We've long had a reputation as a provider of never-before-seen power products -- and will offer you all the engineering and manufacturing support you need to customize your generator ...

Each manufactured containerised generator is acoustically lined to achieve the external sound levels required at your site. We build each container from scratch with special louvres for free ...

MOBISMART is the leading provider of advanced, mobile, solar off-grid power generation and storage systems that can be easily deployed to construction sites in urban, rural and remote ...
