

How long does it take to build a container home?

Alternatively, you have the option of supplying your appliances. You can receive your new container home within three months of signing the contract, with installation taking 3 to 7 days. For your home to go into production, you must pay 30% of the total, with the rest payable before the house is released from the factory.

What is a container building?

The container building can be individual room, office area, villa, hotel, etc., and the house design can be customized. MOQ: 1 set Two storey model with large balcony perfect for stargazing.

How much does a container house cost?

Price for the ready-made module (6.4m x 3.1m, without terrace): 33 000 EUR +VAT +shipping OR Build it yourself for less than 10 000 EUR with our DIY Garden Room Instructions The Container House is a wooden ready-made module designed to resemble a 20-foot shipping container.

What is a container house?

Its structure is entirely built out of wood and fully assembled in the factory. The Container House is comparable in size to the well-known "D" house. Although maintaining a more traditional exterior look, it sports a great looking sliding glass door (4.1m x 2.4m, 1/2 openable, 2-layer glass packet, laminated pine frame, color TM 1703).

Do Architects use old shipping containers?

Some architects and manufacturers use old shipping containers, whilst others use new containers.

Should you build a house from a shipping container?

Houses from shipping containers generally require minimal foundations, such as level and compact ground or concrete footings. This presents a huge cost saving for your home project. You will still need electricity, water and sewage connections.
