

Ethiopia Energy Storage Industrial Park Project

Why should Ethiopia maintain its commitment to industrial park development?

Ethiopia Ministry of Industry, Industry Park Development Commission, and Bole Lemi Industry park Branch offices should sustain their commitment to industrial park development as it is generating foreign currency, creates jobs, and realizes technological transfer.

How many types of industrial parks are there in Ethiopia?

In Ethiopia, two types of industrial parks are under development: large, medium, and light-scale industrial parks¹ on the one hand and integrated agro-industrial parks² on the other hand (UNIDO, 2017).

Should industrial parks in Ethiopia double their export capacity?

Also, when it is confirmed that we are benefiting from the free market, industrial parks in Ethiopia, including Bole Lemi, should work hard to double their export capacity and earn more foreign exchange. 5.4. For Further Researchers

Are Bole Lemi industrial park development projects a new concept in Ethiopia?

3.1. Research Design As industrial park development projects are new concepts in Ethiopia, the study has adopted both descriptive and econometrics case studies of research design by using both qualitative and quantitative methods to observe the prospect and challenges of Bole Lemi Industry Parks in Ethiopia.

What is Ethiopia's investment policy?

The GTP is complemented by Ethiopian Investment Policy, which is supported by accompanying legislation the Investment Proclamation No. 769/2012, which among other things ensures the protection of private property rights and the repatriation of capital and profit (COMCEC, 2017).

How do industrial parks contribute to the green economy?

To establish a connection between industrial parks and the country's green economy, it is necessary to encourage sustainable growth and social equality. Industrial parks have had a significant impact on green development. Factories engaged in the manufacturing sector will not pollute the environment.
