

What is the European power supplies Manufacturers' Association (UKEiG)?

The European Power Supplies Manufacturers' Association UKEiG was formed in 1995 to represent the specialist needs of the power supply industry in Europe. The association currently has around 25 members from ten countries, employing over 8,000 people and with combined global revenues exceeding 5 billion Euros. Our mission statement:

What should you know about the power supply industry in Germany?

The Power Supply industry in Germany is characterized by several key considerations that potential entrants should be aware of. Regulatory frameworks are stringent, with the European Union's directives on energy efficiency and sustainability greatly influencing operations.

What are the different types of power supplies?

Bench Power Supplies: Standalone units, often with displays and controls, widely used for electronics testing, circuit development, and educational laboratories. Open Frame Power Supplies: Minimal enclosure, designed for integration into larger systems or OEM equipment. These are ideal for embedded systems or custom machinery.

How many members does a power supply association have?

The association currently has around 25 members from ten countries, employing over 8,000 people and with combined global revenues exceeding 5 billion Euros. Our mission statement: 'Promoting the Power Supply industry in Europe and Supporting its Users'

What is a power supply?

While almost every electronic device contains an internal or external power supply--such as batteries in flashlights or embedded PSUs in computers--the industry typically uses the term to describe devices that convert existing electrical power into a form suitable for a specific use or application.
