

Getting Started with Solar Panels

How do I get solar power?

If you want to do solar, just build some blocks out of the top of your pod then put your panel on that, and you should start to gain power (assuming the sun is up) Well, there is one of your problems. Power sources can only power things that it has a connection to. "Wireless" power isn't a thing in space engineers.

How do I install a solar panel system?

To install a solar panel system using an Elevation Ballast from Sunfixings, fix the elevation frames directly into the ballast using either stainless steel screws specially designed for fixing into concrete or chemical anchors. The ideal ballast to use is either concrete blocks or lintels with a minimum 100mm depth. Reach the optimum solar panel angle.

How do I get the best deal on solar panels?

The best way to make sure you're getting the best deal on your solar panels is to get multiple quotes and ask as many questions of your potential installers as you need. CNET has reviewed many of the national solar companies, but it's a good idea to check into local installers, too, who sometimes can offer lower prices.
