

Holland Heavy Industry Energy Storage Project

GIGA Storage, a Dutch and Belgian battery storage developer, has reached financial close for its utility-scale Battery Energy Storage System (BESS) project GIGA ...

A massive hydrogen plant on the Tweede Maasvlakte, heralded as a key part of Rotterdam's green energy transition, is now at risk of never becoming operational.

Strategic located in the Vlissingen port (North Sea Port), one of the upcoming energy hubs in the Netherlands, with well-developed infrastructure, direct access to the grid, and several large ...

Sodium-ion battery manufacturer Natron Energy has shuttered operations, including at its manufacturing plant in Holland, Michigan, following the current US administration's ...

This project enables the successful integration of batteries in traction grids by 1) a highly efficient multi-port converter to connect batteries and other elements to traction grids and 2) a suitable ...

Holland & Hart advised GridStor, a developer and operator of utility-scale battery energy storage systems, in the negotiation of a construction (EPC) agreement and a battery ...

UK investment management group Downing LLP has announced its first utility-scale battery storage site in the country, a 50MW/53MWh project in Nursling, Southampton on ...

Instead of building batteries for EVs, which the company pitched when the project was approved in 2022, the plant will manufacture batteries for energy storage. It's the first ...

A massive hydrogen plant on the Tweede Maasvlakte, heralded as a key part of Rotterdam's green energy transition, is now at risk of never ...

Shell's Holland Hydrogen 1 (HH1) project is expected to become Europe's largest commercial green hydrogen production facility. It will feature a 200-MW electrolyser powered ...

The Dutch government is subsidising over 1GW in electrolyser capacity in the Netherlands to the tune of nearly EUR800m (\$967m), as part of a multi-billion-euro EU ...

The project, expected to come online in 2027, is the latest in Kern Energy's efforts to drive innovative solutions that will make our work, our fuels, and our communities safer, ...

Holland Heavy Industry Energy Storage Project

The Dutch government is subsidising over 1GW in electrolyser capacity in the Netherlands to the tune of nearly EUR800m (\$967m), as part of a ...

Evero, a UK-based low-carbon energy-from-waste wood company, has been selected by the UK government to negotiate the transformation of its Evero Ince biomass plant ...

The project demonstrates how long-term experience in modular construction is being used to help construct future sustainable energy alternatives. Through its successful ...

Reading time: 6 minutes A hydrogen system is under construction in the port of Rotterdam, combining production and use primarily in industry, ...
