

Home Energy Storage System Investment

Is solar battery storage worth the investment?

As more homeowners switch to solar power systems, the demand for solar battery storage is growing. But is it truly worth the investment? With rising energy prices and an increased focus on sustainability, storing excess solar energy has become an attractive solution.

Are energy storage systems in demand?

Energy storage systems are increasingly in demand to increase the effectiveness of solar power arrays, with the Energy Information Administration estimating in February that new utility-scale electric-generating capacity on the U.S. power grid will hit a record in 2025 after a 30% increase over the prior year.

Should you invest in solar and storage?

Households that have made the investment in both solar and storage understand that their oversight and savvy are what make these systems function as a combined entity, creating opportunities for energy optimization, further reduced monthly cost, and enhanced self-sufficiency.

Are solar and battery storage a viable option for a mature home?

As much as these may sound like the considerations of a commercial fisherman, it's actually the menu of options available to energy mature homes that have invested in both solar and battery storage. According to a recent home energy framework from research firm Habitielligence, these homes are at CORE level 4 - Empowered.

Is Bloom Energy a good energy storage stock?

Bloom Energy is one of the smaller picks on this list, but it may be the most dynamic energy storage stock out there. It specializes in advanced fuel cell energy platforms, which use a proprietary solid oxide technology to convert natural gas, biogas or hydrogen into electricity with low or even zero carbon emissions.

Should you upgrade your home's energy system?

As households climb the ladder of energy maturity, though, more of the physical system upgrades are in the rear-view mirror, and the focus then shifts to the homeowners themselves as the orchestrators of energy efficiency and cost savings.
