

India exports photovoltaic modules

Does India export photovoltaic (PV) modules?

Key FindingsThe export of Indian photovoltaic (PV) modules has risen exponentially by more than 23 times between Fiscal Year (FY) 2022 and FY2024, primarily to the US, which accounted for more than 97% of India's ex

Why is India emerging as a major exporter of solar photovoltaic (PV) cells?

New Delhi: India is emerging as a major exporter of solar photovoltaic (PV) cells as countries look for alternatives to China for sourcing supplies in their switch to renewable energy to fight climate change.

How many solar panels are exported from India?

According to solar panel export from India, India's solar module exports amounted to \$1,969.13 million, or 91% of the total in fiscal year 2023-24. Around 11,171 million USD worth of solar cells and modules have been imported into the nation over the past five years, accounting for 0.4% of all imports to India.

Is US a key market for Indian solar PV exports?

In terms of markets, the US has emerged as a key market for Indian solar PV exports. More than 97% of Indian solar PV exports went to the US in both FY2023 and FY2024. "Focussing on the US market can benefit the Indian PV manufacturing ecosystem.

Who are the top solar panel exporters in India?

The top solar panel exporters in India are Servokon Systems Limited, Ecosys Solar Solution, Paradise Exports, Popular Science Apparatus Workshops Pvt. Ltd., and TMA International Private Limited. Solar energy is now one of the most promising renewable energy sources due to the global shift toward sustainable energy solutions.

How did Indian solar module and cell exports perform in Q1?

Indian solar module and cell exports increased 26.1% quarter-over-quarter (QoQ) to \$267.6 million (~INR23.1 billion) in the first quarter (Q1) of 2025 from \$212.2 million (~INR17.92 billion), according to recent data published by the Department of Commerce.

In this blog, we will explore the trends for solar panel export from India, its current solar panel exporters list, key export destinations, and the ...

Three major Indian companies--Waaree Energies, Adani Solar, and Vikram Solar--dominated the export market, driving India's rapid growth as a solar supplier. The ...

Solar energy in India - statistics & facts India's solar energy market is experiencing significant and rapid growth, establishing itself as a global leader in solar power deployment.

India exports photovoltaic modules

The details of solar cells and modules exported from the country for the last five years, country-wise, as per the website pertaining to Export-Import ...

Solar exports in the quarter were dominated by photovoltaic modules, which accounted for 98.7% of the total shipments, while solar cells made up the remaining 1.3%. The ...

Overview Ministry of New and Renewable Energy, Government of India is implementing the Production Linked Incentive (PLI) Scheme for National Programme on High Efficiency Solar ...

India is emerging as a major exporter of solar photovoltaic (PV) cells as countries look for alternatives to China for sourcing supplies in their switch to renewable energy to fight ...

With India's module solar photovoltaic (PV) module manufacturing capacity set to reach 110 gigawatts (GW) by 2026, the country will attain self-sufficiency and be able to target ...

The export of Indian photovoltaic (PV) modules has risen exponentially by more than 23 times between Fiscal Year (FY) 2022 and FY2024, primarily to the US, which accounted for more ...

As of FY 2024-25 (till November 2024), solar PV modules worth around 782.11 million USD have been exported. This data was shared by Shripad Yesso Naik, Union Minister of State for New ...

The details of solar cells and modules exported from the country for the last five years, country-wise, as per the website pertaining to Export-Import Data Bank of Department ...

The Q1 2025 Boom in India's Solar Trade India exported solar panels and solar cells worth \$267.6 million (INR23.1 billion) in Q1 2025, compared to \$212.2 million in Q4 2024. ...

In this blog, we will explore the trends for solar panel export from India, its current solar panel exporters list, key export destinations, and the future outlook for this vital sector.

India's solar module exports were 91% up to \$1,969.13 million in fiscal 2023-24. USA was the biggest destination with modules shipments to ...

India's PV module exports have grown steadily in recent years. The nation exported around \$83 million worth of modules in fiscal 2021-22, rising to \$1.97 billion in fiscal ...

India's solar module exports were 91% up to \$1,969.13 million in fiscal 2023-24. USA was the biggest destination with modules shipments to the nation totalling \$1,939.92 ...
