

Is it good to install solar power generators in Syria

Are solar panels a better option than losing electricity in Syria?

According to an opinion poll conducted by Enab Baladi, a number of Syrians residing in various governorates considered that alternative energy through solar panels is a better option than losing electricity despite its high costs and regardless of the controlling parties.

Are solar panels a viable alternative energy source in Syria?

As an option that seemed to be one of the best alternative energy sources in Syria, reinforced by the absence of fuel, the spread of solar panels began in most regions, respectively, years ago, amid "government" support and adoption of this trend.

Does Syria have solar energy?

Northeastern Syria, which is mostly under the control of the Autonomous Administration, is witnessing the spread of solar energy systems, like most Syrian regions, but they seem to be limited in the homes and facilities of families living in a good economic situation, according to what Enab Baladi monitored.

Are solar panels allowed in Syria?

The Syrian Interim Government (SIG), which controls areas of rural Aleppo, issued a decision last May, excluding solar panels from customs duties at all crossings for a period of three months, until 31 July.

How much does a solar panel cost in Syria?

The price of a panel capable of charging a small battery and lighting a room is about 80,000 Syrian pounds, regardless of its quality, while the monthly salary of her husband, who is an employee in an agricultural establishment affiliated with the Syrian regime, is about 110,000 Syrian pounds.

Should farmers use solar energy for irrigation?

Mohammad Rajab, a panel installer and owner of the Energy World center in the city of al-Bab, explained to Enab Baladi that many farmers tend to use solar energy for irrigation, as it is less costly than drawing water using diesel-fueled machines, and it also requires less maintenance.

Solar power is not only practical for Syria -- it's also clean. With heavy reliance on diesel generators, the country has seen a rise in air pollution and noise.
