

Japanese battery energy storage box direct sales company

Why do Japanese businesses need battery storage?

Businesses see battery storage as a complement to their renewable energy strategy, and a strong opportunity to improve their bottom line while accelerating their path to decarbonization. Enel X is a global leader in this space, and is a partner of choice for Japanese businesses.

Can ECU energy commercialise large-scale batteries in Japan?

For ECU Energy, the LTDA is important to the business model of its Japanese projects but the developer, perhaps best known for projects in the UK and Australia, sees three pathways to commercialisation for large-scale batteries in Japan. The company secured a 20-year tolling agreement for its first Japan project, the 30MW/120MWh Hirohara BESS.

What is Banpu Japan's new grid battery storage system?

This contract represents the largest single order for the system to date. The order is for two new grid battery storage sites to be built by Banpu Japan in Fukushima Prefecture, and Miyazaki Prefecture. Each site will have a storage capacity of 109.6 MWh, equivalent to the daily electricity consumption of approximately 10,150 households.

The platform will initially target 1GW of BESS projects in Japan over the next five years, and seek to build and grow a long-term business in ...
