

When did Globeleq & Mozambique launch a solar power plant?

Our solar power plant in Cuamba was inaugurated in September of 2023. It marked another milestone for Globeleq and Mozambique, as it was the first IPP to integrate a utility-scale energy storage system.

Is battery storage a key technology for Mozambique's future?

Globeleq sees battery storage as a key technology for Mozambique's future. Storage costs are expected to continue decreasing, so those systems will become more competitive and will be able to contribute more.

What is Globeleq's first greenfield project in Mozambique?

The US\$36 million Cuamba Solar plant is also Globeleq's first greenfield project in Mozambique and the Group's first combined solar and storage plant in its operating portfolio.

Will Cuamba solar deliver clean power to the Mozambican grid?

Mike Scholey, Globeleq's CEO remarked: "We are extremely excited to now have Cuamba Solar officially delivering clean power to the Mozambican grid via EDM and supporting both the local economy and the Government's efforts to build more renewable power.

Why should Mozambique be a regional power supplier?

First, to ensure that Mozambique has reliable and cost-effective power generation capable of meeting its 2030 electrification goals. Second, to establish Mozambique as a regional power supplier of choice. South Africa has a critical shortage of electricity, and Zambia and Zimbabwe also require power.

Why should you invest in the Cuamba solar and storage plant?

"The Cuamba solar and storage plant will provide greater energy security and stability in this region of Mozambique and marks a turning point for the Cuamba district. Globeleq, Source Energia and EDM have all invested in this project - a public-private partnership that demonstrates the confidence of international investors in Mozambique.

"The Cuamba solar and storage plant will provide greater energy security and stability in this region of Mozambique and marks a turning point for the Cuamba district.

Spanish company TSK will provide engineering, procurement and construction services for a site described as "Mozambique's first grid scale battery energy storage system" ...

The Ministry of Mineral Resources and Energy of Mozambique, funded by the German Government through KfW, has announced a tender for solar photovoltaic and battery energy ...

Mozambique Energy Storage Project Branch

Mozambique's first solar plus storage IPP project breaks ground African focused renewable energy independent power producer, Globeleq, and its project partners, Source Energia and ...

Mozambique needs to invest US\$ 6.5 billion in power generation, through a mix of renewable and gas projects, and in upgrading its stressed and fragmented electricity grid particularly as it ...

The project is in the Tete District of Cuamba, a city in Mozambique's Niassa province. Scope of the US\$32 million project's works includes upgrades to Cuamba's electrical ...

We are working with EDM to potentially double Mocuba's generation capacity and add battery storage, strengthening the grid in Mozambique's central region. Solar technology ...

EDM and Mozambique support the development of renewable energy projects, having launched public tenders for solar and wind projects, the country is also exploring battery storage solutions.

We have recently reached an agreement to supply the complete battery energy storage system (BESS), including the medium voltage equipment to the EPC contractor ...

This info session aims to brief developers, independent power producers, financiers, and other stakeholders about upcoming solar and energy storage tenders in Mozambique under the ...

Mozambique energy storage project ARENE, under the GET FiT Mozambique Program funded by KfW, invites prequalification for solar PV and battery energy storage system projects. Learn ...

first combined solar and storage plant. "It supplies clean energy to EDM through a 25-year power purchase agreement, provides energy to around 22,000 Mozambican families, saving more ...

The use of proven power generation technologies coupled with a well-structured and realistic data-driven plan will enable Mozambique to reach its electrification goal. To identify the ...

African power development company Ncondezi Energy Limited has recently announced its renewable energy Ncondezi Green Power Holding Limited (NGP) subsidiary has entered into ...

Commercial operations at the 19MWp Cuamba Solar PV and 7MWh battery energy storage plant in Mozambique are officially underway. The plant supplies clean energy to ...

Let's cut to the chase--Mozambique's latest joint energy storage project bidding isn't just another infrastructure tender. With global energy storage now a \$33 billion industry ...
