

New Zealand contracted photovoltaic panel installation manufacturer

Who are New Zealand's leading solar installers?

0800-SUNSHINE (786 744) New Zealand's leading solar installers since 2004 revolutionized renewable energy by pioneering solar technology and creating sustainable energy solutions. Proud of our exceptional team of solar engineers, technicians, and electricians, all working in-house.

What is solar photovoltaics - Infratec New Zealand?

Solar Photovoltaics - Infratec New Zealand Limited. Leading the renewable energy revolution are solar photovoltaic (PV) plants, which provide clean, safe, and cost-effective energy generation.

What is a grid-connected solar system in New Zealand?

A grid-connected solar system in New Zealand uses north-facing PV panels to convert sunlight into AC energy for homes, allowing excess energy to be sold back to the grid. An off-grid solar PV system enables independent electricity generation and storage, ideal for remote locations or commercial use, requires batteries.

How much does a solar system cost in New Zealand?

The cost of a solar system varies depending on the size of the system, the type of solar panels, the inverter, and the battery. In New Zealand, the average cost of a solar system for a home is around \$10,000 without a battery and \$20,000 with a battery. What does a home battery do?
