

Who is Nordic batteries?

Nordic Batteries AS, founded in 2014 in Norway, specializes in advanced battery modules, packs, and energy storage systems for industrial sectors including construction, maritime, defense, and power grids. Leveraging automated production and innovative technology, they deliver high-performance, safe, and sustainable energy solutions.

Are battery energy storage systems a key part of the Nordic energy transition?

Battery energy storage systems (BESS) continue to play a vital role in the Nordic energy transition. Based on Marsh's experience in advising BESS owners in the Nordics, cold climate challenges, ensuring safety, and optimizing spacing are key topics that are discussed for BESS development in the region.

What products does Nordic batteries offer?

Nordic Batteries' technology portfolio centers on two main product lines: ePOWER and eENERGY modules. The ePOWER series delivers high-power output for demanding industrial applications, while the eENERGY modules provide extended duration energy storage capabilities.

What makes Nordic batteries a sustainable brand?

Nordic Batteries also emphasizes sustainability in their production methods, using renewable energy sources throughout their manufacturing processes. Their battery designs consider the complete lifecycle, including potential second-life applications and eventual recycling, supporting circular economy principles.

Are Nordic batteries looking for a development engineer?

Nordic Batteries are seeking a development engineer for mechanical construction and system design. Factor 47 is operative! The pilot line where Nordic Batteries will produce their first battery modules is now officially open after the visit from former Prime Minister Erna Solberg where she cut the banner to kick it off.

Who invested in Nordic batteries?

Nordic Batteries has received substantial investment from several Norwegian entities. Kongsberg Innovation, through its Pre-Såkorn Fond, provides significant financial backing and technical support. Vardar AS, an energy group owned by former Buskerud county municipalities, has invested in the company.

BOS Power and HiTHIUM sign a 3GWh battery energy storage agreement to support renewable projects across the Nordic region, marking a significant step in sustainable ...

Over the past decade, Finnish energy storage battery customization companies have quietly become global players, particularly in specialized applications like grid stability and cold ...

Our battery energy storage solutions are designed, developed, and manufactured in Finland. From inverters to control and protection systems, everything is crafted locally to ensure high ...

This is true for Ingrid Capacity as well. Here you will find our latest news, if you want to know more about us you can always visit our newsroom. Latest news May, 2025 Ingrid Capacity, in ...

Our customized battery and energy storage solutions are designed to meet the demanding requirements of this industry. Our products offer robust, high-performance power solutions ...

Industrial energy storage swedish factory operation The answer from Volvo Cars and Northvolt is clear: we will develop and build our own batteries and it will be done on site in Sweden. That's ...

Helios Nordic Energy has completed the sale of a 10-MW battery energy storage system project near Sodertalje, Sweden. The ownership transfer occurred during the ready-for ...

The Nivala battery storage project marks SEB Nordic Energy's second significant investment in Finland in a short time. It follows a 125 GWh wind portfolio comprising 13 wind ...

Nordic Batteries designs and manufactures high-power and high-energy battery modules, BMS and BESS products. The company bridges the gap between battery cell ...

Stockholm. 2024.12.18 - Helios Nordic Energy, a leader in utility PV and BESS project development in the Nordics, has successfully completed the sale of a ...

Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available. By storing ...

The cooperation project between Desay Battery and Lehto Group will adopt a "battery energy storage + digital operations and maintenance" model, not only providing ...

Nordic Batteries AS, founded in 2014 in Norway, specializes in advanced battery modules, packs, and energy storage systems for industrial sectors including construction, maritime, defense, ...

SunContainer Innovations specializes in Nordic-focused battery production systems, having delivered 37 customized lines across Scandinavia since 2018. Our turnkey solutions combine ...

Norway aims to be a leader in the battery storage market in the Nordic region, but Sweden and Finland have surpassed it in BESS deployments. Jon Ferris, an analyst at ...

Nordic energy storage battery customization

Nordic Batteries announces a strategic partnership with Morrow and Eldrift to develop complete battery packs for mobile and stationary battery energy ...
