

Northern Cyprus mobile power station electricity price

How much does electricity cost in Cyprus?

The average price of electricity since 2007 reached its maximum, EUR0.3739kWh, in December of 2023 and its minimum price, EUR0.1527 kWh, in June of 2016. The difference between the price of electricity with and without taxes is EUR 0.1427 tax for each kilowatt hour, thus, 38.17% of what households pay for electricity in Cyprus.

Are there private power plants in Cyprus?

As a precondition to the accession of Cyprus to the European Union, the local market for electricity generation has been opened to private companies, but so far no private power plants have been built, although four licences have been granted by Cyprus Energy Regulatory Authority.

Is Cyprus ready to liberalise the electricity market?

The process of liberalising the electricity market is still underway. EAC, the national electricity company, accounts for 65% of the installed capacity. Cyprus has not granted any exploration licences for new gas or oil blocks. Oil accounts for 79% of the power mix (2023).

Does Cyprus have oil & gas exploration licences?

Cyprus has not granted any exploration licences for new gas or oil blocks. Oil accounts for 79% of the power mix (2023). Solar capacity is increasing rapidly and has nearly tripled since 2020, reaching 606 MW in 2023. Electricity prices are impacted by global oil prices. They nearly doubled between 2020 and 2023 and decreased by 10% in 2024.
