

The Norwegian energy company Statkraft has contracted AFRY to conduct a feasibility study on optimising the operation of Norway's largest pumped storage power plant in ...

Norwegian aluminium and renewable energy company Norsk Hydro ASA (OSE:NHY) today announced plans to build a NOK-1.2-billion (USD 115m/EUR 103m) pumped ...

In this context, Norway, with its vast hydropower storage resources, could play a strategic role in stabilizing the European electricity market. Norway holds a unique geographical advantage: its ...

Energy storage is at the heart of the energy transition - powering the move to a renewable future for global industry and ending fossil fuel dependency. At ENERGYNEST, our purpose is to ...

Norsk Hydro, a Norwegian aluminum and renewable energy company, is planning an 84GWh pumped storage project in Luster Municipality, Norway.

Norway's hydropower system, especially plants with large storage reservoirs, is well-suited for holding energy over long periods. By storing surplus electricity during low-demand seasons ...

Norway's hydropower system, especially plants with large storage reservoirs, is well-suited for holding energy over long periods. By storing surplus electricity ...

We are a proud contributor of sustainable and smart energy supply for northern Senja. By installing local energy storage solutions that will function as energy ...

Norwegian pumped storage hydropower could help stabilise electricity prices Pumped storage hydropower, using electricity to fill hydro reservoirs, is back in the news ...

Dinorwig Power Station has been constructed on the site of the Dinorwig slate quarries, which closed in the 1960s. The slate tips were relocated to improve the aesthetic value of the area, ...

Battery Energy Storage System Sustain your electrical grid reserves and address challenges posed by shifts in electricity production and regulatory changes. ...

Why This Mega-Project Matters (and Why You Should Care) a mountain range near Oslo where three peaks aren't just scenic viewpoints, but giant energy storage power ...

Store Norske Energi, a state-owned energy company based in Longyearbyen, is testing whether solar energy

could be used to transition Spitsbergen to ...

Hydro is set to construct a new pumped storage power plant in Luster Municipality, Norway. Construction is expected to commence in 2025, ...

Europe hit a renewable energy milestone in 2024, with hydropower playing a key role in grid flexibility, energy security, and decarbonisation efforts.

In April 2020, the Norwegian Ministry of Energy granted Norsk Hydro a concession to develop the Illvatn pumped storage power plant. An application for a plan change is being ...
