

Outdoor power box distribution cabinet

What is a power distribution cabinet?

A power distribution cabinet is the general name for the motor control center. It is the final equipment in the power distribution system and is responsible for distributing electrical power to various loads.

What is a power distribution box?

The power distribution box allows different configurations of the battery packs to be connected in series or parallel. The PDU also contains a master BMS unit (MMU) which communicates with the Pack BMS units. If you have any questions, we will be happy to advise you and help you from the idea to the finished battery.
