

Outdoor power supply is safe and good

Are outdoor power strips safe?

Outdoor power strips have safety features to prevent them from shorting out due to overloading. Some outdoor power strips also function as surge protectors and have built-in fuses that cut off the flow of current when it exceeds the maximum wattage for a standard 15-amp outlet, which is 1,875 watts.

Are outdoor power strips weather resistant?

Outdoor power strips come in a variety of sizes, from small three-outlet models up to large 10-outlet beasts. Unlike indoor models, these rugged, weather-resistant power strips can endure extreme temperatures and even downpours. Understanding what weather conditions an outdoor power strip is rated to handle is key to purchasing the right one.

Do I need a GFCI outlet if I run power outside?

When running power outside, a GFCI-equipped outlet is required by code in all areas exposed to moisture, such as the outdoors, and ensures safety. When adding an outdoor outlet, be sure to choose an outdoor-rated, weatherproof model with built-in, high-sensitivity GFCI.

Is a permanent power outlet necessary?

For lighting, lawn tools used on a regular basis, or power needs for outbuildings, you need a permanent power solution for safety. This can involve an outdoor outlet addition to your home's main structure, or wiring run remotely to an outbuilding.

Are outdoor power strips Wi-Fi Ready?

Some outdoor power strips are Wi-Fi ready, allowing them to connect to your home network. These smart power strips can be controlled via a smartphone app, which is ideal for turning on and off holiday lighting displays.

Are EIGSO power strips weatherproof?

EIGSO's weatherproof outdoor power strip is one of the most affordable models that still offers a high degree of weather resistance. With its IPX6 rating, it can withstand continuous rainfall thanks to drainage holes on the back of the power strip that allow water that finds its way into the sockets to drain out.

Most power strips are intended for internal use only unless specifically stated by the manufacturer. Using power strips outdoors exposes them to dangerous risks such as ...
