

Photovoltaic cell module warranty

Are solar panels covered by a warranty?

A solar panel warranty doesn't cover the performance of your other system components like your inverter, mounting materials, or battery. These products are covered by their own separate warranties and are also vital for your system's long-term value and performance. What's the power warranty on solar panels?

What is the warranty period for qcells modules?

WARRANTY CLAIMS The original Customer must inspect the Qcells Modules for visible defects and notify HQCA of any defects within 30 days of the delivery of the Qcells Modules ("Inspection Period"). If Customer does not notify HQCA of the visible defects within the Inspection Period, such modules shall be deemed as being accepted by the Customer.

Does a repair or replacement affect a module renew the warranty period?

Any repair or replacement of the affected module(s) shall not renew the applicable warranty period. The warranty period for replaced or repaired module(s) is the remainder of the warranty for the affected modules.
