

Portuguese power generation equipment container

Which genset containers are available?

All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C. A broad range of options, both mechanical and electrical, are available to ensure that our containers meet the project requirements. For example, we offer several heat recovery configurations and exhaust after treatment systems.

What is the standard ventilation for genset containers?

The standard ventilation is designed for ambient temperatures from -25°C to +40°C. The genset containers can be equipped with several additional features to enable operation at lower temperatures on request. Type 6 containers are available with a similarly broad range of options that we offer for the Type 2 /3 /4 containers.

What are the sound pressure levels available for genset containers?

Lower sound pressure levels are available on request. The standard ventilation is designed for ambient temperatures from -25°C to +34°C. All genset containers are also available with an option for -40°C and most variants can be upgraded for +45°C.

Looking ahead to 2026, we're piloting second-life EV battery arrays with Portuguese automaker AutoEuropa. Early tests show 70% cost reduction compared to new cells - perfect for non ...

Grupel started its operations, in 1976, as a small company. Today, it has become the largest production unit of generator sets, in Portugal, operating in the 5 continents with more than 50 ...

Containerized plug-and-play power generation modules (PM) are a convenient and efficient solution for various power generation needs. These modules are housed in a shipping ...

The Department of Defense, specifically the Department of the Army, is seeking contractors to provide non-personal Power Generation and Refrigerated Container services at Fort McCoy, ...

Container diesel generators are powerful, self-contained power generation units that are housed within shipping containers. These generators are designed for robustness, portability, and ...

Red Electrica has reported that as of 7.00am this morning, 99.95% of demand had been recovered after a massive power outage hit Portugal and ...

Our generator containers for Type 2, 3, and 4 gas engines have a standard 40-foot length. Width and height depend on engine type, the application (power generation only or CHP) and ...

Portuguese power generation equipment container

Our catalogue includes Waste container, Modular housing container and Customized special equipment container. High quality products, competitive ...

PTU is a custom-designed power source that integrates advanced power generation and distribution equipment. They are tailored to meet the unique power demands of specific ...

At the beginning of the Tier 4 transition, our engineering team had the opportunity to work with different customers in different markets to design and develop a line of high-power Tier 4 Final ...

Our Containerised Generators are ideal for exposed locations, marine environments, and oil and gas applications, offering long-term durability, enhanced security, and reduced maintenance ...

At LRS Container Service, we specialize in designing and constructing containerized power plant rooms tailored to meet the specific needs of various industries across South Africa. Our ...

The mobile, decentralised energy container is the perfect solution for implementation at any location. We plan, design and manufacture quickly, without major construction effort, and using ...

The mobile, decentralised energy container is the perfect solution for implementation at any location. We plan, design and manufacture quickly, ...

Mobile Solar Container - All in One Power Solution with Foldable Panels LZY's photovoltaic power plant is designed to maximize ease of operation. It not only transports the PV equipment, but ...

Convert shipping containers into mobile power stations equipped with generators or solar panels. These can be deployed to remote areas or disaster-stricken regions to provide temporary ...
