At Voltaic, we manufacture custom and standard small solar panels and while most are rectangular, we have experience designing and deploying a full range of interesting shapes and sizes.

Why are custom-shaped solar panels more expensive?

We are happy to make custom-shaped solar panels, but they will be more expensive per Watt and generate less power per area than rectangular panels. A water jet or CNC machine is required to cut the urethane substrate or glass, making the process more complex and costly.

Where did photovoltaic cost data come from?

Photovoltaic cost data between 1975 and 2003 has been taken from Nemet (2009), between 2004 and 2009 from Farmer & Lafond (2016), and since 2010 from IRENA. Prices from Nemet (2009) and Farmer & Lafond (2016) have been converted to 2024 US\$ using the US GDP deflator, to account for the effects of inflation.
