What does a new TRQ mean for solar?

The new measure, which increases the TRQ from 5 gigawatts (GW) to 12.5 GW annually, is aimed at supporting domestic solar manufacturers as they face increasing global competition. The change, set to take effect on August 1, 2024, will allow for a higher volume of CSPV cell imports without triggering additional safeguard tariffs.

Will bifacial solar panels be exempt from tariffs?

In his announcement, the President included an exemption for bifacial solar panels. This decision comes after the ITC recommended in November 2021 to extend the safeguard tariffs for an additional four years. Proclamations

How will the CSPV tariff change affect solar panels?

The change, set to take effect on August 1, 2024, will allow for a higher volume of CSPV cell imports without triggering additional safeguard tariffs. This adjustment is expected to benefit U.S. solar module producers who currently depend on imported CSPV cells due to limited domestic production capabilities.
