

Solar power home purchase

Should you buy a house with solar panels?

Despite solar panels being more common than ever, many home buyers are still determining if buying a house with solar panels is a good idea. The truth is - it depends! Solar panels can increase the value of a property and can lead to low or no electricity bills, but it all comes down to who owns the panels and how they're financed.

Does buying a house with solar panels affect a mortgage?

Buying a house with solar panels can affect the way you get a mortgage. In particular, matters like owning or leasing the panels and how the panels were financed might affect your mortgage. If the seller of your soon-to-be home outright owns the solar panels, that's ideal; the panels will likely only affect the home's price.

Should you buy a solar home if you're not the original owner?

Solar will save almost all homeowners money, even if you're not the original owner. You might encounter one of four solar home scenarios when you're shopping for a house: fully-owned solar panels, leased solar panels, solar panels purchased with a solar loan, and PACE (Property Assessed Clean Energy) financed solar panels.

Is buying a home with solar panels the right move?

Currently, solar power accounts for just 3.9 percent of total U.S. electricity generation, but that number is rapidly growing. So is buying a home with solar panels the right move for you? Well, that depends on some key factors.

Can solar panels power a home?

Solar panels are used to power everything from calculators to sports stadiums to satellites -- and they can just as easily be used to power a home. You don't need to be a rocket scientist - or anything close to it - to get solar panels for your home.

Can you buy a solar energy system with a mortgage?

New homeowners can add solar as part of their mortgage with loans available through the Federal Housing Administration, which allow borrowers to include financing for home improvements in the home's purchase price. Buying a solar energy system makes you eligible for the Solar Investment Tax Credit, or ITC.
