

Solar system wholesalers in the Democratic Republic of Congo

How many Solar Ambassadors are there in the DRC?

We have 3,500+ Solar Ambassadors in our network, working across 22+ provinces. Between them, they distribute 10,000+ products every month. 90% of Congolese people lack access to electricity. We want to see energy poverty eliminated in the DRC by 2030. Our cost effective systems help off-grid customers power a wide range of appliances.

What percentage of Congolese people have access to electricity?

Less than 10% of the Congolese population has access to electricity, 35% in urban areas (50% in Kinshasa) and less than 1% in rural areas. There are also strong regional disparities in access to electricity. But, Congo has an immense development potential thanks to abundant hydrological and solar resources.

Will energy poverty be eliminated in the DRC by 2030?

We want to see energy poverty eliminated in the DRC by 2030. Our cost effective systems help off-grid customers power a wide range of appliances. Our cost effective systems help off-grid customers power a wide range of appliances. Our world-class solar lamps are used in homes, schools, businesses and hospitals across DRC.
