

Developer and optimiser Ingrid Capacity and storage owner-operator BW ESS have been working together to deliver 14 large BESS projects across the Swedish grid in tariff ...

The Role of Energy Storage in the Energy Transition Since 2023, Ingrid Capacity has partnered with BW ESS to develop 14 large-scale battery storage projects at strategically ...

Battery energy storage system (BESS) specialist Ingrid Capacity has the largest operational portfolio in Sweden and the Nordics, a collection of projects totalling 211MW which ...

Construction is scheduled for autumn 2025, and the facility will consist of two 10MWh Monsson battery units, optimized for cold-weather performance and reliable operation ...

HYBRIT's pilot project for hydrogen gas storage has now been completed and reported to the Swedish Energy Agency. The results show that it is technically possible to ...

The construction of Isbillen Power Reserve favours European industry, with more than half of the value of the project being of European origin: the battery containers will be ...

The Battery Energy Storage Systems (BESS) market in Sweden has experienced substantial growth in Q1 2025, driven by advancements in technology and increased adoption across ...

The "Pajkölen" project will achieve a 40 MW / 80 MWh throughput by 2025, bringing the Swedish company's battery storage capacity to 270 MW (Photo is from Flower's 42,5 MW BESS in ...

The project is set to be operational by 2025, reflecting the ongoing evolution of Sweden's energy storage landscape. Arise, a notable player in the renewable sector, ...

Monsson Energy AB Monsson is pleased to announce the successful completion of the acquisition of 100% of the shares in a 60 MWh Battery Energy Storage System (BESS) ...

It marks Monsson's initial implementation of its own BESS solution in Sweden, where it has mostly been present through wind farm operation and maintenance services. The ...

The transaction was concluded with Neoen, one of the world's leading independent producers of renewable energy, as part of their strategy to refocus on larger-scale ...

Construction has begun on Sweden's largest Battery Energy Storage System (BESS) undertaken by Neoen, an

Sweden 2025 Energy Storage Project

Independent Power Producer and Nidec, a system ...

Neoen has announced the official start of construction of the Isbillen Power Reserve battery during French President Macron's visit to Sweden With a capacity of 93.9 MW ...

Monsson completed the acquisition of 100% of the shares in a 60MWh Battery Energy Storage System (BESS) project located in Eskilstuna Commune, Sweden. The ...

Swedish energy company Stockholm Exergi announced today that it has been awarded support for bio-CCS, a technology that captures biogenic ...
