

Which energy storage projects have been commissioned in Switzerland?

Axpo commissioned its BESS in February this year while utility Thurplus commissioned a 3MW system in September last year. But Switzerland was the location for one of the largest energy storage projects commissioned in recent years, a 20GWh pumped hydro energy storage (PHES) unit which started operations in June 2022 in the Canton of Valais.

How will a large-scale storage system help the Swiss power grid?

In this way, the system will help to stabilise the Swiss power grid. With this large-scale storage system, we are making a decisive contribution to the implementation of Switzerland's Energy Strategy 2050, which aims to convert 100 per cent of its energy supply to renewable energies by 2050.

Where in Switzerland will Primeo energy install a battery storage system?

In Kappel, in the canton of Solothurn, we will install one of the largest battery storage systems in Switzerland with a total capacity of 65 megawatt hours. Primeo Energie will use the stand-alone storage system to make energy more flexible and store electricity temporarily and withdraw it again when it is needed.

Is MW storage the country's largest battery storage project?

MW Storage is a developer of BESS projects which is also active in the German market, with a 100MW/200MWh project underway that it claimed is the country's largest. The inauguration ceremony for the BESS project. Image: EWS AG. EWS AG and MW Storage have expanded a battery storage project in Switzerland to 28MW, making it the country's largest.

Does Switzerland's new large-scale battery support the Energy Strategy 2050?

The new large-scale battery for Switzerland in Kappel supports the Energy Strategy 2050 and supports renewable energies.

How will Primeo energy contribute to the Swiss energy transition?

We are delighted to be taking a significant step in the Swiss energy transition together with Primeo Energie. In Kappel, in the canton of Solothurn, we will install one of the largest battery storage systems in Switzerland with a total capacity of 65 megawatt hours.

Discover the top emerging companies in the Energy Storage Tech Startups in Switzerland, their funding activity, key investors, company highlights, and growth stages

1 day ago; Zelestra has signed a long-term tolling agreement with Swiss energy firm BKW to deliver a battery energy storage system (BESS) with up to 2 GWh capacity in northern Italy.

Detailed info and reviews on 9 top Energy Storage companies and startups in Switzerland in 2025. Get the

latest updates on their products, jobs, funding, investors, ...

Zug-based terralayr, a company specialising in energy storage, has secured EUR77M (EUR62M in equity and EUR15M in debt) in funding -- from Creandum, ...

Swiss IT, communication and energy consultancy and services firm FlexBase Group has teamed up with local construction group Erne to build an over 500 MW redox flow ...

A redox flow battery energy storage facility with an output of 500 MW will be built in Switzerland. The development was announced by the company Flexbase, which said the ...

With its hydroelectric power plants in the Alps and innovative projects, Switzerland is contributing to the search for solutions for the efficient, long-term storage of electricity.

To be located on a 20,000 sqm (215,280 sq ft) site in Laufenburg in the canton of Aargau, Erne said the 500MW project will be the world's largest battery storage system. The ...

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland ...

Some of the key players in the Swiss energy storage market include Leclanché, which is developing lithium-ion batteries for grid-scale applications, and Energy Vault, which is ...

The Swiss battery storage technology company's engineering and product teams were motivated by the growing market demand for larger, higher-voltage and higher rated capacity battery ...

Innolith is an energy technology company that is pioneering an entirely new and safe battery technology platform. This will provide new ways of storing and using electricity for ...

Find the most complete and detailed compilation of the best energy storage companies. The catalogue consists of over 40 top providers of energy storage solutions.

Utility EWS AG and developer MW Storage have completed the expansion of a battery energy storage system (BESS) project in Switzerland from 20MW to 28MW, making it ...

The centerpiece is the new building opposite the existing building. The world's largest and most modern redox flow battery storage facility is being built on an area of over 20,000 m². The ...

Leclanché is the only publicly traded, pure play energy storage company in the world, and is listed on the Swiss Stock Exchange. They trust us Discover a selection of our customers and ...
