

The major players in the energy sector that are listed on the stock exchange and that produce power from renewables include Energy Absolute (EA) (solar wind and biogas), SPCG (solar), ...

Thailand's decarbonisation commitments in its Nationally Determined Contributions (NDCs) under the Paris Agreement have triggered new rounds of renewable ...

The Asian Development Bank (ADB) and the Gulf Renewable Energy Company, a subsidiary of Gulf Energy Development Public Company, have finalised an \$820m loan ...

With renewable energy capacity projected to reach 30% of its grid by 2036, the country needs robust storage solutions to balance its famous sunshine-heavy solar farms and ...

5 days ago; The Electricity Generating Authority of Thailand (Egat) plans to convert three hydropower dams into massive energy storage systems with a 90-billion-baht investment. This ...

The second-phase scheme, offering capacity of up to 3,668.5 megawatts, comprises solar farms (2,632MW), wind farms (1,000MW) and biogas (6.5MW from waste ...

The new projects, awarded under Thailand's Feed-in Tariff (FiT) scheme Phases 1 and 2, include a 30 MW ground-mounted solar plant with energy storage and three wind ...

Learn how CIF's early investments in clean energy helped pioneer wind and solar power in Thailand, driving sustainable energy transformation and climate action.

This demand is driving the development of hybrid clean energy solutions, such as solar and wind power combined with energy storage systems, to provide a reliable 24-hour energy supply.

"Our report shows Thailand can prioritize deployment of renewables and energy storage to meet growing electricity demand," said Ponglert Chanthorn, BNEF's Thailand and ...

Learn how CIF's early investments in clean energy helped pioneer wind and solar power in Thailand, driving sustainable energy transformation ...

The project will be the first private sector project in Thailand to integrate utility-scale wind power generation with battery energy storage and will have an important demonstration effect.

Thailand Wind Solar and Storage Construction

The Asian Development Bank (ADB) today announced the signing of an USD-820-million (EUR 779m) loan with the renewables subsidiary of Gulf Energy Development PCL ...

Thailand is accelerating its transition to clean energy, with distributed solar playing a pivotal role. Backed by strong government policies and rising market demand, businesses and ...

President Trump declared an energy emergency, prioritizing thermal and hydropower generation over wind, solar and storage. We expect this order to expedite ...

10 hours ago· The county just passed an ordinance regulating wind, solar, and battery storage facilities earlier this year, and now are starting to hear quietly from companies looking at ...
