

The cabinet is next to the battery cabinet

What is a battery cabinet?

Battery cabinets are a convenient storage solution that encourages staff to maintain the correct handling and storage procedures. By charging and storing batteries in the one location, you are reducing the likelihood of batteries being lost, stolen, damaged or left in unsafe conditions (such as outdoors).

Are battery Cabinets based on chemical cabinets?

In this article, we give you answers to these important questions. Many battery cabinets are based on chemical cabinets, also known as EN 14470-1 cabinets or PGS 37 cabinets. These types of cabinets have specific characteristics: They are intended for storage of paints and solvents. They protect the contents from fire starting outside the cabinet.

Are battery cabinets fireproof?

The outside of the cabinet becomes glowing hot. On the other hand, you have battery cabinets that are based on fireproof safes, such as the Batteryguard. We designed our cabinets specifically to store lithium-ion batteries safely in them.

How does a kitchen cabinet protect from a fire?

They protect the surrounding area from a fire starting inside the cabinet. The doors of the cabinet remain closed even in the event of a battery explosion inside. The outside of the cabinet remains cool. Toxic fumes are discharged (if connected) or remain inside the cabinet.

What happens if a battery cabinet explodes?

The battery fire breaks out of the closet and spreads to your premises. The doors of the cabinet can flip open if the battery explodes. This releases toxic fumes that escape from the cabinet. The outside of the cabinet becomes glowing hot. On the other hand, you have battery cabinets that are based on fireproof safes, such as the Batteryguard.

How to choose a battery safe?

The Batteryguard battery safe is the first tested safe and recommended by insurers. An example of a safety cabinet. Choose safety and invest in a fireproof battery safe that keeps the battery fire inside the battery safe. Also, consult with your insurer and make a plan where together you assess the risks for your situation.
