

Qair is an independent renewable energy company developing, financing, building, and operating solar, wind, waste-to-energy, storage and green hydrogen production assets.

With projects in 20 countries, a 6GW+ project pipeline, and 1,600MW+ in operation and under/near construction, the company is rapidly expanding its ...

The World Bank has launched a call for interested consultants to conduct a technical study for a 350 MW to 400 MW solar and battery storage project in Tunisia.

Can Tunisia build a large-scale solar project? Tunisia's Ministry of Industry, Mines and Energy has kicked off a new procurement exercise for large-scale solar. Tunisia's Ministry of Industry, ...

The World Bank is seeking to recruit a technical consultant to provide advice on a large-scale solar energy storage project in Tunisia. The consulting work will focus on a 350 ...

Tunisia energy storage power station Tunisia is planning to embrace pumped storage, considered the most mature of the stationary energy storage technologies, but also the most expensive. A ...

Scatec has signed a 25-year power purchase agreement with STEG for a 120 MW solar project, strengthening its presence in Tunisia and cooperation with Japan's Toyota Tsusho Group.

Tunisia signs two agreements with foreign companies for the construction of solar power plants in Sidi Bouzid and Tozeur. These projects are part of the country's energy strategy to increase ...

Tunisia accelerates its energy transition by awarding 4 solar photovoltaic projects totaling 498 MWac, aiming to reduce dependency on imports and promote renewable energies.

The World Bank is looking to recruit a technical consultant that will advise on a proposed large-scale solar-plus-battery storage project in Tunisia. The consultancy work will ...

The EBRD and Proparco are financing two 60 MW solar power plants in Tunisia, developed by Scatec and Aeolus-Toyota Tsusho Group, to boost renewable energy production ...

Tunisia is planning to embrace pumped storage, considered the most mature of the stationary energy storage technologies, but also the most expensive. A project has therefore been ...

Tunisia Photovoltaic Energy Storage Project

Faced with growing energy dependency, Tunisia is taking a decisive step forward in its commitment to renewable energy. On December 26, the Ministry of Industry, Mines and ...

Tunisia's Minister of Industry, Mines and Energy, Fatima Al-Thabat Shibb, has approved four solar projects with a combined capacity of 500 MW Battery Energy Storage ...

However, PV-plus-storage, as well as CSP solutions, are paving the road towards a different future. 3.1 PV-plus-storage Solar projects combined with storage solutions will be necessary to ...

With projects in 20 countries, a 6GW+ project pipeline, and 1,600MW+ in operation and under/near construction, the company is rapidly expanding its investments in wind, solar, ...
