

UK PV panel prices

How much do solar panels cost in the UK?

The most common type of system is the 4kW solar system, which costs between £5,000 - £6,000. It can save the average household about £660 per year, provided that they have a decent number of sunlight hours and are installed on a south-facing roof. In 2025, the price of solar panels in the UK can vary depending on several factors.

How much does a photovoltaic system cost in the UK?

o A household in the UK installs a 5kW photovoltaic system costing £8,000 (average cost), which would generate approximately 4320 kWh of electricity annually. o The annual SEG income in the UK would be £324 per annum.

How many solar panels were installed in the UK in 2024?

Record growth in installations: The UK saw a record 203,185 new solar installations in 2024. Over 70% of these were for small systems (0-4kW). Economies of scale still apply: Larger solar systems (10-50kW) remain more cost efficient per kW with prices about 1/3 lower than smaller systems.

How much does a 3.5 kWp solar panel system cost?

A 3.5 kWp solar panel system would typically require around 10 solar panels (at 350 W each) and cost between £5,000 and £10,000. *kWp stands for 'kilowatt peak'. This is the amount of power that a solar panel or array will produce per hour in prime conditions.

Where are solar PV cost data taken?

Data are taken from the Microgeneration Certification Scheme - MCS Installation Database. For enquiries concerning this table email fitstatistics@energysecurity.gov.uk. Small scale solar PV cost data for 2024-2025 published. Small scale solar PV cost data for 2023-2024 published. Small scale solar PV cost data for 2022-2023 published.

How much does a solar PV installation cost per kilowatt?

The mean average cost per kilowatt of a small solar PV installation (0-4kW) is above £2,000 for the first time since these records began in 2013/14. Prices for larger solar installations (4-10kW) increased even more dramatically - by 31% since 2021/22.

What is the average cost of installing solar panels in the UK? Based on current market trends, the average cost of solar panels typically ranges from £2,500 to £6,000 for a 2 - 4 kW system.

The price of solar panels depends, among others, on the square metres and system type. Check out the average prices of PV in the UK and the estimated installation costs & ...

UK PV panel prices

Solar panel costs in the UK typically range from £4,000 to £10,000, depending on your property size, energy usage, and system specifications. Long-term savings and ...

How Much is a Single Solar Panel in the UK? A single 400-watt solar panel costs £150-£350, depending on brand and efficiency. This price excludes installation, inverters, or ...

How Much Do Solar Panels Cost in the UK? 2025 with our comprehensive pricing guide. Learn about installation expenses and government incentives

In this guide, we'll explain the major factors that impact the final price of a domestic solar panel installation in the UK. This will include average costs, common install scenarios ...

How Much is a Single Solar Panel in the UK? A single 400-watt solar panel costs £150-£350, depending on brand and efficiency. This price ...

3 days ago; In this guide, we'll break down the average cost of solar panels in the UK, explain how prices vary depending on system size and property type, and show you how much money ...

Discover the true cost of solar panels in the UK for 2025, including installation, batteries, savings, payback periods, grants, and return on ...

The starting price for a 6-panel system with on-roof solar panels is just £4,995, and a 12-panel (5.52 kWp) system starts from only £6,825. Solar panels allow you to generate your own ...

You could save up to £1,248 a year. + Solar energy is the fastest growing renewable energy solution, with 1.2 million homes in the UK going solar. And it's not surprising, as typically a 12 ...

Discover solar panels in the UK. Learn about PV panels, solar power, panel sizes, output, and how solar photovoltaic panels can power your home

3 days ago; In this guide, we'll break down the average cost of solar panels in the UK, explain how prices vary depending on system size and property type, and ...

Discover the true cost of solar panels in the UK for 2025, including installation, batteries, savings, payback periods, grants, and return on investment.
