

Ukrainian energy storage investment project

Will DTEK build a 200MW battery energy storage system in Ukraine?

DTEK unveils EUR140m plan for 200MW battery energy storage systems in Ukraine. (Credit: DTEK) DTEK Group, a private investor in Ukraine's energy sector, has announced a EUR140m investment plan to construct a series of battery energy storage systems (BESS) in the country with a combined capacity of 200MW.

How much will Ukraine invest in a battery-based energy storage project?

The project, with an investment of EUR140 million (\$143 million), will lead to the delivery of Ukraine's first large-scale battery-based energy storage portfolio and the provision of 400MWh of dispatchable power - declared enough to supply short term power for 600,000 homes.

What does DTEK's new energy storage system mean for Ukraine?

The new project aims to strengthen Ukraine's energy security and support the transition to a greener energy system. DTEK Group aims to commission the new storage systems by September 2025.

How many energy storage plants will Ukraine have?

Said to mark a significant step towards enhancing the country's energy independence, stabilising power supply and accelerating its transition to renewable energy, the project should deliver six energy storage plants located at sites across Ukraine, with capacities ranging from 20MW to 50MW and totalling 200MW.

Which Ukrainian energy company has selected fluence energy?

Ukrainian energy company DTEK has selected Fluence Energy to deliver 200MW of advanced energy storage systems to be installed at six sites across the country.

When will DTEK's new energy storage systems be operational?

DTEK Group aims to commission the new storage systems by September 2025. Once operational, these energy storage facilities will provide ancillary services to Ukraine's Transmission System Operator Ukrenergo.

20 hours ago; Ukraine's DTEK has completed a 200 MW/400 MWh battery project, the nation's largest, in just six months using remote commissioning with Fluence.

18 hours ago; Together we are contributing to a stronger, more decentralized energy system that will ensure long-term stability for Ukraine." Earlier, DTEK and UK-based clean tech firm ...

DTEK is to build a series of energy storage systems in Ukraine with a capacity of 200 MW to help build a secure and green energy system. EUR140 million will be invested in the ...
