

Which communication base station companies are there in Nepal

When was the first telephone exchange established in Nepal?

The first telephone exchange was established in Kathmandu in 1960. From 1960 to 2004, the state-owned Nepal Telecommunications Corporation (NTC), also known as Nepal Telecom, or Nepal Doorsanchar Company Limited (NDCL), had been the monopoly telecom carrier. Now, there are only two operators, so Nepal's telecom industry is a duopoly market.

When did telecommunication service start in Nepal?

In Nepal, operating any form of telecommunications service dates back to 1970. However, telecom service was formally provided mainly after the establishment of MOHAN AKASHWANI in B.S. 2005. Later as per the plan formulated in the First National Five-year plan (2012-2017 BS), Telecommunication Department was established in B.S. 2016.

How many people use telecommunications in Nepal?

Nepal's telecommunication network has increased over the years significantly, with the number of telephone users (both fixed and mobile phone) reaching 40,789,198 as of 14 May 2019. Nepal Telecommunications Authority (NTA) is the regulatory body of telecommunications in the country.
