

Which portable power bank has the best price performance ratio

What is the best power bank?

I've found the best power banks usually come from Anker, but newer brands like Cuktech and Iniu are also starting to make a name for themselves. Anker's A1383 20,000mAh power bank is my top pick for its hefty battery capacity, fast-charging and built-in cable, but the Iniu P41-E2 10,000mAh power bank is a nice budget portable charger.

How do I choose a portable power bank?

Connection types vary across all portable power banks, cell phones, computers, headphones, tablets, and electronics brands. So, make sure to choose a power bank with ports that are compatible with the devices you need charged most often.

Which battery is best for power banks?

Anker is the best in part because it packs more power into its batteries at a lower weight. Its batteries charge faster than competitors. Its small Anker Nano battery has the best power-to-weight ratio of any battery on our list. Which brand is best for power banks in 2025? Anker is making some of the best power banks right now.

What is a power bank & why do you need one?

Power banks are physical stop gaps that prevent dreaded cases of DPS (dead phone syndrome). Whether you forgot to plug it in overnight or you've been traveling all day without access to an outlet, these are a lifeline for you and your portable electronics.

How efficient is a power bank?

Power banks are about 60-70% efficient, depending on the phone's technology, so in our tests this power bank could charge an iPhone 15 to nearly full, but that big Ultra only got about 65% charge. That's just fine, because this power bank was the perfect pocket companion to keep us going through a busy day.

What factors should you consider when choosing a power bank?

Another factor to consider is how quickly a power bank can charge your device. Battery output is measured in voltage and amperage. Amperage (or current) is the amount of electricity that flows from the battery to the connected device, while voltage is the amount of potential energy.
