

Zambia produces electric solar power generators for home use

What has the Zambian government done about solar energy?

The Zambian Cabinet has also: Suspended customs duty on the importation of irrigation equipment accessories for the period 1 July,2024 to 31 December,2027. The government has also called on citizens to fit solar panels to power private buildings where possible in order to create "a solar explosion of new clean energy."

Where can a generator be set up in Zambia?

The government is also looking to set up generators at designated locations - hospitals, schools, business areas and markets. Zambia is facing an energy crisis caused by low water levels at its hydropower plants because of a drought which has reduced water levels in the Kafue River and Zambezi basins.

Why should you invest in a photovoltaic system in Zambia?

Zambia provides optimal conditions for photovoltaic (PV) with average irradiation rates of 5.5 kWh/m²; To harvest that huge source of energy we provide a wide range of photovoltaic solutions for the residential, business and social sector. In general, PV systems can be divided into on-grid and off-grid systems.

What percentage of Zambia's Electricity comes from hydropower?

Matembo Lisimba of ZESCO talks about the utility's efforts to diversify Zambia's energy mix 85% to 90% of electricity generation comes from hydropower. What is the national electrification strategy of Zambia? Zambia has a National Electrification Strategy (NES) to help it achieve universal access to electricity by 2030.

Why should you choose a solar pump system in Zambia?

Zambia has one of the biggest water resources in Sub-Saharan Africa and our solar pump systems will enable you to access those resources at any place. Either for residential use, irrigation of farm land or industrial applications, solar pumps will ensure an independent water supply at your location.

Who sells SDMO generators in Zambia?

Diesel-Electric is the largest supplier of SDMO generators in Zambia, with the largest installation base in Zambia. SDMO generators range from 3.75kA to 2.2MVA. It also offers Micro Care stand alone and grid tie inverters. Many of the major banks, hotels and industrial units in Zambia are clients of Diesel-Electric.
